700(W) x 540(D) x 250(H)mm

R 5,900

Compact

340(W) x 250(D) x 200(H)mm

R 3,900

ADVANTAGES

- **Sterilization** - it uses ultraviolet UV-C light to destroy viruses and bacteria.
- **Universal** - it can sterilize the surface of any object of any material.
- **Fast** - it only takes 60 seconds per side.
- **Safe** - it does not use any toxic detergents or harsh solvents.
- **Delicate** - it only shines light on your most fragile possessions.
- **Dry** - it does not use any water or cleaning fluids (no drying time).
- **Accessible** - it can sit right next to you on your desk.
- **Low cost** - it only uses a tiny amount of electricity (10 cents per month).

Manufactured locally in
Kloof , KZN.
